ABOUT ME

I am a passionate Software Engineering undergraduate, driven by a lifelong love for technology. Committed to expanding my skills in software development, I seek opportunities to contribute to innovative projects and collaborate with others in the field.

EDUCATION

University of Westminster, London BEng (Hons) Software Engineering

Faculty of Computing (2023 - 2027)

First Year Modules (Average:71)

- Trends in Computer Science
- Computer Systems Fundamentals
- Software Development I
- Web Design and Development
- Mathematics for Computing
- Software Development II

Second Year Modules (Grades:Pending)

- Object Oriented Programming
- Database Systems
- Software Development Group Project
- Mobile Application Development
- Algorithms: Theory, Design and Implementation
- Software Engineering Principles and Practice

Royal College Colombo 07 Advanced Level

(Physical Stream) Passed in 2022

- Combined Mathematics
- Chemistry
- Physics

Ordinary Level 9 A's in 2019

UNIVERSITY ACHIEVEMENTS

- Ranked 35th in the island and 570th globally in the IEEE Extreme 18.0 2024 Hackathon.
- 7th place out of 40 teams in the Coding Competition at Hackathon CodeRally, organized by IEEE CS of IIT, 2024.
- Participated in the TravelTech Hackathon 3.0 by Acornic Ventures as a finalist, ranking among the top 8 teams as VannilaVoyagers.
- 95th place out of 387 teams in the MoraXtreme 9.0 Hackathon, organized by the IEEE Student Branch at the University of Moratuwa, 2024.
- Participated in Benchmark 3.0, organized by AIESEC in SLIIT, and reached the finals among the top 20 teams as Goose 4.0.
- Participated in the international hackathon organized by the University of Westminster, 2024.

SCHOOL ACHIEVEMENTS

- Treasurer (2021), Royal College Aeronautical Society: Led three major projects as Project Chairman, contributing to the society achieving a "B" grade in the year end evaluation.
- Top Board Member (2021), Royal College Science Association: Contributed to various scientific initiatives and projects.
- Top Board Member (2021), Royal College Mathematics Society: Assisted with projects.
- 1st Place, All-Island Individual Dancing Competition (2018).

SKILLS

Programming Languages

- Java
- Python
- JavaScript
- Dart

Technologies

- Spring Boot
- Node.js
- Angular
- Flutter
- React.js
- MySQL

Tools

- Figma
- GitHub/Git
- Adobe Photoshop
- Adobe Premiere Pro

Soft Skills

- Adaptability
 - Problem Solving
 - Public Speaking
 - Teamwork
 - Leadership
-

CERTIFICATIONS

- Machine Learning Course – IIT PDU
 - GenAI 101 with Pieces – Pieces for Developers
 - Spring Boot Course – LinkedIn
 - Angular Essential Training – LinkedIn
 - Postman API Fundamentals Student Expert – Postman
 - Practice It: Java – LinkedIn
 - Basic Java Certification – HackerRank
-

PROJECTS

WaliPilla (Group Project) | Flutter | Node.js | Firebase | MongoDB

- Designed a gamified mobile app for kids to learn the Sinhala language, targeting upper preschool to grade 5 students, as well as Sri Lankan children abroad. The app helps users master grammar, spelling, writing, and pronunciation through interactive learning.

MathVision AI | React | Python | Gemini Flash AI API | Canvas API

- AI-powered handwritten math solver using Gemini Flash AI API, React, and FastAPI. It allows users to draw equations on a digital canvas, processes them using AI, and provides real-time solutions seamlessly.

TickSync (Real-Time Event Ticketing System) | Spring Boot | Angular | Java

- Engineered a high-performance ticket booking system using Spring Boot and Angular. Implemented thread-safe concurrent programming to handle multiple user requests efficiently, ensuring smooth booking without overbooking.

Edu4All | HTML | CSS | JavaScript

- Edu4All is a group project aimed at improving communities and transforming children's lives by advocating for and facilitating access to high-quality education. The platform focuses on empowering communities through education.

BudgetBuddy | Python | Tkinter

- Built a personal finance management tool that helps users track income and expenses effectively. Features include customizable budgets, financial reports, and data visualizations for better financial decision-making.
-
